

Inventor: Ronald A. Weiner et al.

Title: Methods of Forming Deuterated Silicon Nitride-Containing Materials

Assignee: Micron Technology, Inc.

**INFORMATION DISCLOSURE STATEMENT**

**References – See Attached Form PTO-1449**

The citations listed, copies attached, may be material to the examination of the subject application and are therefore submitted in compliance with the duty of disclosure defined in 37 CFR § 1.56. The Examiner is requested to make these citations of official record in this application. No admission is made regarding whether all the submitted references are prior art.

The listed references are discussed in the specification under the heading "Background of the Invention".

The materials cited are presented to assist in and expedite examination of this application. The present invention is considered to be patentable over the cited materials. Expeditious examination and allowance of this application as a patent are therefore urged in order that the public may benefit from the disclosure and commercialization of the invention.

Respectfully submitted,

Dated: 7/3/03

Attorney: 

David G. Latwesen, Ph.D.  
Reg. No. 38,533
